-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1761

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 17, 2006 has been entered.

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-3, 5, 17-22, 24 and 26 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter that was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no support in the original disclosure for the claimed dimethyl-ethyl-pyrazine concentration or for the claimed colorimeter L-value. Applicant's spec. (page 28) and Fig.5 do not support the first limitation above, and the spec. (page 20, lines 4-15) does not support the second limitation above, as applicant believes. Corrections are required.

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the

Art Unit: 1761

invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1 and 5 are rejected under 35 U.S.C. 103(a) as being unpatentable over "Salmon Patties" in view of Ellis et al (4,806,377) as set forth on pages 5-6 of the January 26, 2005 Office action. Further, finding the optimum dimethyl-ethyl-pyrazine concentration and the optimum colorimeter L-value would require nothing more than routine experimentation by one reasonably skilled in this art.

6. Claims 2 and 3 are rejected under 35 U.S.C. 103(a) as being unpatentable over "Salmon Patties" in view of Ellis et al as applied to claims 1 and 5 above, and further in view of "A Dinner Experiment" and "Dried Food Products" as set forth on page 6 of said Office action.

7. Claims 17-22, 24 and 26 are rejected under 35 U.S.C. 103(a) as being unpatentable over "Food Product Design" in view "Salmon Patties" and Ellis et al as set forth on pages 7-8 of said Office action. Further, see the last sentence in paragraph no. 5 above.

8. Claim 26 is also rejected under 35 U.S.C. 103(a) as being unpatentable over Ellis et al in view of "Salmon Patties" as set forth on pages 2-3 of the September 23, 2005 Office action.

9. Applicant's arguments with respect to claims 1-3, 5, 17-22, 24 and 26 submitted August 17, 2006 have been considered but are moot in view of the new ground(s) of rejection.
